

Flag in or out for putting

1. As a general rule of thumb I would have the flag in for long putts and out for short ones because its usually the long ones that might benefit from hitting the pin and stopping close by. Or even hitting the pin and going in when it might not otherwise.
2. If the flag is leaning towards you I would take it out because it may stop the ball from going in.
3. If you are downhill you might benefit from leaving it in in case it hits the pin and drops when it might not have otherwise.

GOOD LUCK
